Splash backs

Used as writing boards, brainstorming boards or as a designed glass whiteboard, giving any room a sleek and modern look

Glass offers a modern and bold style which, depending on budget, can be personalised further, for example: Adding lighting to complement the shine of the glass. As no grout is required to install the splashback there is no need to worry about stains or mould appearing over time.

Less maintenance is required as the glass can be cleaned easily with a soft damp cloth.

Glass surfaces are non-porous and hygienic.
