- Achieve even better accuracy as Dragon continually adapts to your voice
- Create custom words and commands to reflect your personal preferences
- Short-cut repetitive processes using simple voice commands

The Philips SmartMeeting Conference Microphone and the HD Audio & Video Recording Solution both utilize Sembly Meeting Assistant to take part in meetings with you as your dedicated note takers. The microphone's smart speech-enhancing and noise-filtering technology ensures clear and natural sounding calls. Sembly creates automatic transcripts, summaries and highlights action points and to dos for you. The solution helps you find out who said what easily and quickly after every meeting, even if you could not attend. Sembly works with all major platforms such as Microsoft Teams, Google Meet, Zoom and GoToMeeting. Sembly will join any call it is invited to, introduce itself, and record the call. It can even attend a call when you're not there! You can focus on the conversation and not get distracted by having to take notes.
